

Uncommon Connections to Good Health Transcript

<http://www.aetna.com/2011annualreport/uncommon-connections.html>

Voice:

The latest revolution in health care didn't begin with a scientific discovery or a breakthrough drug. It started instead with a revelation: the more control you have with your health care, the more you can take charge of your health.

It's simple. We want to make it easier for you to live healthier.

Combining access to the care you need with the convenience of dependability you desire.

Developing easy-to-use tools that help you make confident choices and keep your expenses in check.

Designing innovative services that enable employers and health care providers to stay focused on what really matters.

Our people are here for you. In moments, big and small.

Delivering support you need and creating connections that make life better.

With Aetna, the power of health is in your hands.
